

Career Opportunity

BI DEVELOPER / JUNIOR BI DEVELOPER

Reporting to the Head Data & Analytics, the job incumbent will be engaged in the design, development, enhancement, and maintenance of all data related solutions within the group. The role is essential to the Group to provide consistent and quality analytics, including operational and regulatory reporting.

The position is tenable at First Capital Shared Services ltd, Ebene, Mauritius.

Key Responsibilities

- Responsible for gathering business requirements and designing report specifications.
- Responsible for designing, developing, and maintaining reports and queries from Data Store & Data Warehouse.
- Create and maintain project documentation and manuals.
- Provide technical, analytical, and business guidance to other team members and other departments.
- Responsible for troubleshooting existing report issues and resolving any data quality issues.
- Perform any other duties as may be required.

What we are looking for

- An undergraduate degree or equivalent in IT and related area
- Minimum 3 years of related work experience
- Sound knowledge and experience on SQL and PL/SQL
- Knowledge of Tableau or any other visualization tool will be a plus.
- Good analysis, coding, testing and documentation abilities.
- Good communication skills
- Strong problem solving and analytical skills and attention to detail.
- Ability to prioritize workload and manage multiple projects.
- Ability to work both independently and as part of a team.

Applications

If you meet the above minimum requirements and are interested, please send your applications with an up-dated CV to: talent@fcssl.com

Only shortlisted applicants shall be acknowledged.
